Tuesday, 11/13

- Dine In Night at Chick-Fil-A at Cameron Village
- Report Cards Go Home

Wednesday, 11/14

- November Family Projects due
- Book orders due

Friday, 11/16

- Fall Picture Day

This week we begin our new module on Weather! Students will be learning about the job of a meteorologist, how weather affects people, and they will create an imaginary narrative about weather.

This week's letter focus will be Ss and Vv. Students will learn a new mystery word this week. Correct letter formation will be taught and practiced on Wednesday. By the end of the week your child should be able to form these letters correctly and read the new mystery word.

The core math group will be working on numbers 6-10.

The enrichment math group will work on number bonds.

Rainbow Words

This week we will be starting an incentive program for learning sight words. Be on the lookout for more information to come home in your child's folder this week.

Reminder: The weather is changing, and your child's change of clothes needs to be appropriate for cooler weather. Make changes as needed please.

Science Made Fun: Property Party
Field Trip

Please return your child's permission slip and \$8.00 as soon as possible if you have not already. This field trip will take place at school.

Thank you to all the parents that went with us on the Naylor Family Farm field trip last week. We hope that you all had a good time! We could not do our job without volunteers like you! Thanks again!

How can you help support us at home?

- All students should be able to write their name with a capital letter at the beginning and the rest lowercase letters.
- In your child's daily folder, there is a **NEW** page to practice letter fluency and another page to practice number fluency. You should time your child at least twice a week to see how many letters/numbers he/she can name correctly in one minute. The goal is to increase the number correct throughout the month.
