Olds Yard Sale 8am

Last week students wrote a booklet about people depending on trees for food. This week they will write another booklet. It will be about animals depending on trees.

We will continue to do math in our homeroom classes this week. Our instruction on teen numbers will continue. Students should recognize numbers to 20 and be able to represent these numbers with cubes. We will also work on less than and greater than numbers.

Is your child's transportation different???

If your child's mode of transportation will be different, you must send the change in writing. We can't rely on all 5 and 6 year old children to give us accurate information. We need your help in knowing how students will be dismissed so all children are accounted for and safe.

Reminder: Parents should initial behavior calendars daily! Thanks so much!

How can you help support us at home?

Please be sure you are doing the fluency activities (in your child's purple folder) with your child at least 3 times per week.

Work on sight words daily with your child!

Utilize the technology resources in your child's daily folder.

You should be reading with your child and letting your child read to you, daily.
